## REPORT TO COUNCIL

### SUBJECT

Presentation on Business Tax Ballot Measure and Other Potential Revenue Measures for November 2022 Ballot

### COUNCIL PILLAR

Enhance Community Engagement and Transparency

### BACKGROUND

At the 2021 Council Priority Setting Session, information was requested by Council on a potential business tax ballot measure which would update the City's current business tax structure. As part of the May 25, 2021 Budget Study Session and at the June 22, 2021 City Council meeting, Staff presented information and a timeline to pursue a measure that could be placed on the November 2022 General Election ballot. At the June 22<sup>nd</sup> Council meeting, Council directed staff to 1) begin work on a potential November 2022 ballot measure, including exploring other potential revenue measures, and 2) agendize a study session for Fall 2021. This direction was affirmed at the August Council Priority Setting check-in meeting.

Currently, all businesses operating within Santa Clara (including those businesses operating but located outside of the City), must have a license to transact business or occupy space in the city. The City's business tax program was last updated in 1992. The business tax program does not allow for a cost escalator and therefore has not changed in almost 30 years. The City's current charge for business tax ranges from \$15 to \$500 per company and as a result receives annual revenue of approximately \$0.9 million.

### DISCUSSION

In preparation for a potential November 2022 ballot measure, City staff has started a procurement for Business Tax and Ballot Measure Consulting Services by releasing a Request for Statement of

Qualifications in September 2021. Staff anticipates completing the procurement process shortly with a contract award expected later this month. The services to be provided include 1) a comprehensive study on the current business tax structure and recommending alternative tax structures/methods in addition to exploring other tax measures, 2) professional polling/public opinion research services and, 3) corporate and community outreach.

As staff proceeds with the analysis for a November 2022 ballot measure, it is important Council input is gathered on some key priorities and/or guidelines for the consultant to take into consideration when making recommendations on possible alternative tax structures. During this study session, staff will provide a brief overview of business tax structures, benchmark comparative cities and briefly discuss other possible tax measures the Council may want to explore for the November 2022 ballot given the projected deficit and on-going infrastructure needs.

At the August 2021 Council Priorities check-in meeting, Council was advised of the projected \$17.6 million deficit in fiscal year 2023/24 along with close to \$1 billion of unfunded infrastructure needs. A critical part of the budget balancing strategies presented to Council was increasing revenues, which included exploring tax measures. While the Business License Tax was prioritized, there are other tax measure options that may need to be explored including the Utility User Tax, Documentary Transfer Tax and a General Obligation Bond or Parcel Tax.
