### **Points for consideration**

- The current single-family residence is proposed for demolition to construct a new single-family residence that meets all of the R1-6L development standards.
- The project site is located in FEMA Flood Zone X, which is considered a moderate to low risk area.
- A neighborhood notice was distributed to properties within a 300-foot radius of the subject site for this project review.
- There are no active code enforcement cases for this property.

### **Findings**

- 1) *That any off-street parking area, screening strips and other facilitates and improvements necessary to secure the purpose and intent of this title and the general plan of the City area a part of the proposed development, in that;*
  - The proposal provides the required two covered parking spaces with a proposed two car garage.
  - The required parking spaces are not located in the required front yard or side yard landscaped areas.
  - The proposed project provides areas surfaced with all-weather materials for parking of vehicles.
- 2) *That the design and location of the proposed development and its relation to neighboring developments and traffic is such that it will not impair the desirability of investment or occupation in the neighborhood, will not unreasonably interfere with the use and enjoyment of neighboring developments, and will not create traffic congestion or hazard, in that;*
  - The proposed demolition and proposed new construction of a single-family residence would not create traffic congestion or hazards.
  - Public streets are adequate in size and design to serve the proposed single-family residence, and the use will not create a substantive increase in traffic.
- 3) *That the design and location of the proposed development is such that it is in keeping with the character of the neighborhood and is such as not to be detrimental to the harmonious development contemplated by this title and the general plan of the City, in that;*

- The proposed single-family residence is to be located outside of the required setbacks and will conform to all zoning requirements. Furthermore, the residence is proposed to have a similar design and characteristics as other single-family residences in the surrounding neighborhood which consists of primarily one- and two-story residences.
- 4) *That the granting of such approval will not, under the circumstances of the particular case, materially affect adversely the health, comfort or general welfare of persons residing or working in the neighborhood of said development, and will not be materially detrimental to the public welfare or injuries to property or improvements in said neighborhood, in that;*
- The project is subject to the California Building Code and City Code requirements, which serve to regulate new construction to protect public health, safety and general welfare.
- 5) *That the proposed development, as set forth in the plans and drawings, are consistent with the set of more detailed policies and criteria for architectural review as approved and updated from time to time by the City Council, which set shall be maintained in the planning division office. The policies and criteria so approved shall be fully effective and operative to the same extent as if written into and made a part of this title, in that;*
- The project proposes a residential design that is compatible in scale and character with the housing types that are typical in the neighborhood as the proposed design of the single-family residence will have similar massing and height to the adjacent properties.
