Points for consideration

- The proposed project is located in a predominantly one-story homes with occasional two-story homes throughout the immediate neighborhood.
- Project site adjoins one-story single-family homes on all sides.
- There are no active City code enforcement cases for this property.

- A 300-foot neighborhood notice was distributed for this project review.

Findings supporting the Staff Recommendation

1. *That any off-street parking area, screening strips and other facilitates and improvements necessary to secure the purpose and intent of this title and the general plan of the City area a part of the proposed development, in that;*
 - The development provides the required two covered parking spaces.
 - The required parking spaces are not located in the required front yard or side yard landscaped areas.
 - The development provides the minimum required driveway length of twenty feet between the parking and any street right-of-way line.
2. *That the design and location of the proposed development and its relation to neighboring developments and traffic is such that it will not impair the desirability of investment or occupation in the neighborhood, will not unreasonably interfere with the use and enjoyment of neighboring developments, and will not create traffic congestion or hazard, in that;*
 - The project proposes a first-floor addition to the existing house in a manner that is compatible with the scale and character of the neighborhood in that the proposed addition is located to the rear and is a one story addition.
 - Public streets are adequate in size and design to serve the proposed single-family residence, and the use will not create an increase in traffic.
3. *Proposed lot coverage within the maximum 40% lot coverage permissible in the R1-6L zoning district. That the design and location of the proposed development is such that it is in keeping with the character of the neighborhood and is such as not to be detrimental to the harmonious development contemplated by this title and the general plan of the City, in that;*
 - The proposed project is compatible with adjacent residential properties and generally consistent with the City's Design Guidelines, in that the project maintains the one-story character. The addition is proposed to the rear minimizing any impact on the existing neighborhood character.
4. *That the granting of such approval will not, under the circumstances of the particular case, materially affect adversely the health, comfort or general welfare of persons residing or working in the neighborhood of said development, and will not be materially detrimental to the public welfare or injuries to property or improvements in said neighborhood, in that;*
 - The project is subject to the California Building Code and City Code requirements, which serve to regulate new construction to protect public health safety and general welfare.
5. *That the proposed development, as set forth in the plans and drawings, are consistent with the set of more detailed policies and criteria for architectural review as approved and updated from time to time by the City Council, which set shall be maintained in the planning division office, in that;*
 - The proposal compliments the existing architectural style of the home by following the features and design, such as the roof pitch, window proportions from the existing house. The proposed addition will be clad in stucco and stone veneer to the front with a new composite shingle roof to match the existing home.
